CRIMINAL JUSTICE PROGRAM – MILO SYSTEM PERMISSION SLIP

Dear Parent or Guardian,

Maplewood Career Center has purchased a MILO system for the Criminal Justice program. The MILO system is a simulator that puts the user in potential real-life scenarios which police officers may face in the line of duty. MILO simulators are used by many police departments as part of their training.

The system uses a computer and software system that portrays scenarios on an interactive screen. The system uses laser guns, pepper spray canisters and tasers which interact with the screen. The system provides the user with the opportunity to review after action footage, and debrief to critique the officer's performance. We anticipate that this tool will be very useful in preparing students who are interested in the criminal justice field.

While this system has many benefits for students aspiring to enter the criminal justice field, the content used in many scenarios is for mature audiences. The MILO system contains mature content such as profanity, violence, blood, etc. Due to the nature of the content used in simulators, Maplewood Career Center is requesting parent/guardian consent for your daughter/son to train on the MILO system.

Thank you,

Craig Morgan
Career and Technical Director

Student's Name _____

- YES – I give permission for my daughter/son to utilize the MILO simulator.** I am aware that the MILO system contains mature content, and grant permission for my daughter/son to train on the system in an effort to prepare them for a position in the criminal justice field.
- NO – I do not give permission for my daughter/son to utilize the MILO simulator.** I understand that my daughter/son will be given an alternative assignment to complete while MILO training is taking place. The assignment will be completed in the Resource Center.
